CAREER OBJECTIVE

Aspiring Data Science and AI professional seeking an entry-level opportunity to apply my skills in Python, SQL, Data Analysis, Machine Learning, and problem-solving. Eager to contribute to data-driven projects, build practical AI/ML solutions, and continuously develop my technical and analytical expertise in a professional environment.

ACADEMIC QUALIFICATIONS

- **Bhawanipur Global Campus**
(Formerly known as NSHM Knowledge Campus, Kolkata) 2025-2029
B. Sc. in Data science I Pursuing
- Kaderia High School
West Bengal Council of Higher Secondary Education 69% 2023-2025
- Kushmandi High School

PROJECTS

Netflix Content Analysis 2026

- Analyzed Netflix content data using Python, Pandas, Matplotlib, and Seaborn
- Performed data cleaning and exploratory data analysis to identify trends in content, release years, countries, and content types
- Created visualizations to analyze Netflix's content distribution and uncover key insights

Superstore Sales Data Analysis 2026 — Ongoing

- Analyzing Superstore sales data using Python, Pandas, Matplotlib, and Seaborn
- Performing data cleaning and exploratory analysis to identify sales, profit, product, and regional trends
- Creating visualizations and dashboards-ready insights to support data-driven business analysis

Student Management System 2026

- Developed a database-driven Student Management System using **Python and MySQL**
- Implemented student record management including adding, updating, searching, and deleting student information
- Designed and managed a relational MySQL database with appropriate constraints and structured SQL queries
- Connected the Python application with MySQL to perform database operations efficiently

CERTIFICATIONS

- **Python Beginner to Advance** – Mind Luster 2026
- Introduction to **NumPy** – Simplilearn 2026
- **MySQL for Data Science** – Simplilearn 2026

- **python Pandas Course** – IntelliPaat **2026**
- **Big Data Analytics** – IBM openHPI **2026**
- Completed credential in **Artificial Intelligence Fundamentals** – IBM SkillsBuild **2026**

SKILLS

Programming & Querying:

Python, SQL, MySQL

Python Libraries:

Pandas, NumPy, Matplotlib, Seaborn

Data Analysis:

Data Analysis, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Data Transformation

Database Management:

MySQL, Relational Databases, Database Management, SQL Queries

Data Science & Machine Learning:

Machine Learning Fundamentals, Statistical Analysis, Feature Analysis, Predictive Modeling Fundamentals

Tools & Technologies:

Git, GitHub, VS Code, Jupyter Notebook

Core Competencies:

Analytical Thinking, Problem Solving, Logical Thinking, Communication, Continuous Learning, Attention to Detail

LANGUAGES KNOWN

English I Hindi I Bengali

EXTRA-CURRICULAR ACTIVITIES

- Practiced coding and problem-solving through **DSA and programming exercises**
- Worked on **academic and personal technical projects** involving Python, SQL, Data Analysis, and Machine Learning
- Built and documented projects using **Git and GitHub**, developing version-control and project-management skills
- Participated in **technical learning activities and online courses** to strengthen programming and data science skills
- Worked on projects involving **data cleaning, exploratory data analysis, visualization, and machine learning**
